REXOIL BENTONITE GREASE

NLGI 00,0,1,2

REXOIL BENTONITE GREASE has been developed for open gear applications operating at high temperatures, such as lantern pinion gears of kilns in cement factories. It consists of high viscosity index base oils and inorganic thickeners, and provides excellent resistance to shock loads thanks to the special additives it contains.

Basic application areas;

High temperature open gears

Rotary kiln lantern pinion gears

Approval and Specifications

- Ferry-Capitain
- FLSmidth
- Danieli
